

Everything Digital

Sovereign Windows Case Study

Sovereign Windows

One of the leading windows and doors manufacturers and installers, they approached Everything Digital to help increase their organic ranking (SEO). The optimisation was started by Everything Digital rebuilding Sovereign Windows website.

Once this was done, Everything Digital massively increased the technical organic ranking in the first 6 months of working with us. Since then it's been a continuous upward trend.

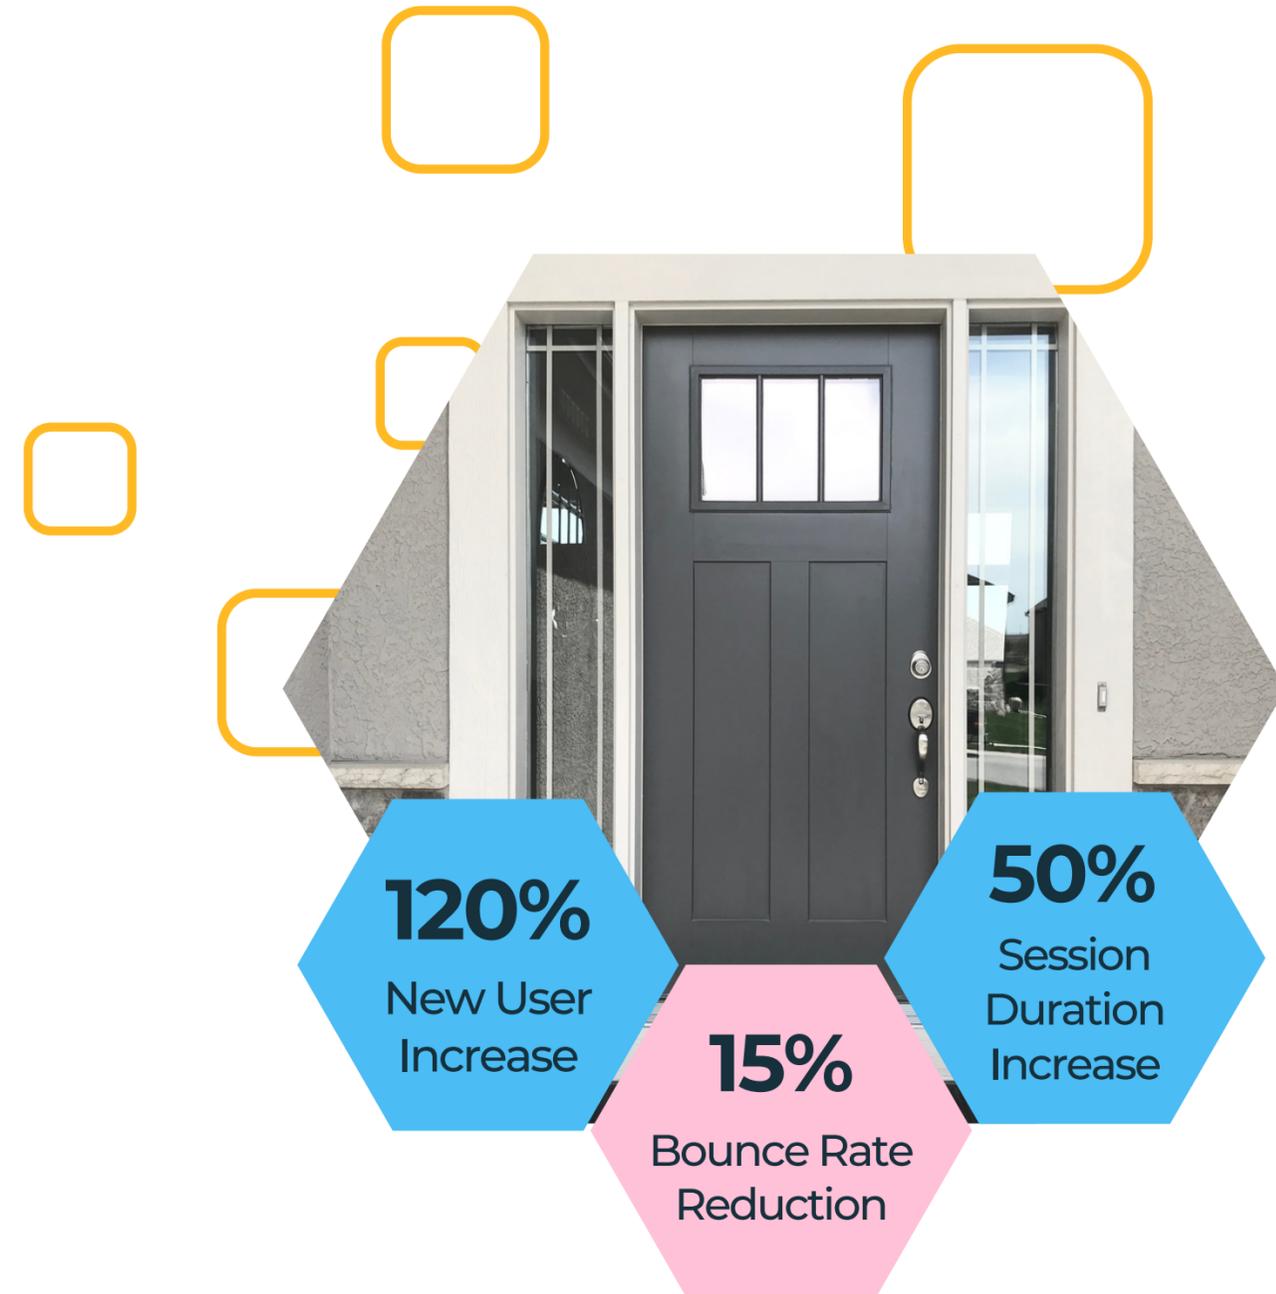

Don't Take It From Us

“We’ve worked with a number of SEO agencies and none of them have gotten us to the point the Everything Digital have.

We changed our website at the advice of Everything Digital and we saw an increase in general traffic to the website, then the enquiries started rolling in and they haven’t stopped since. Everything Digital always explain the strategy in as much detail as they can before they action anything and they show me which keywords i’m ranking for, which helps loads.

Looking forward to continuing to work with Everything Digital for the foreseeable future!”
